The Software Requirement Specification

The SRS is the initial phase that needs to be completed in TGMC. Since SRS is one of the most important aspects of your project, which acts as a blueprint, it is advisable that quality time and effort is spent on it before actually starting the work on your project.

- Please see the SRS template required: [SRS Template.odt](#) / [SRS Format.pdf](#)
- Example of a completed SRS document: [SRS Example.pdf](#)

How to submit SRS

Will be updated soon!

IMPORTANT: If you do not follow the SRS instructions completely, your SRS will not be accepted.

Have questions? Call us toll-free at 1800-425-9366.

We are available from 8 a.m. to 6 p.m. Monday through Friday.

You can also visit our [FAQs](#), e-mail us at tgmc@in.ibm.com or post a question on our [group message board](#).
